Giza inhabitants are almost 9 millions (9,000,000). The governorate – to reach its aim developed a strategy for comprehensive development and ameliorating the system of education, in the light of lifelong learning perspective and sustainable development agenda 2030 (putting in mind the importance of sustainability) to cover all areas, specially poor and rural ”marginalized” areas which are in need.
As a pilot area, the governorate chose the area of ancient Imbaba (part of north of Imbaba) with the highest population in the area.

N.B:
Through cooperation with G.O.s and N.G.O.s (E.g. Future Eve, Egypt national project, etc…) to combat illiteracy.
