# AIMS AND OBJECTIVES

Support the efforts of the National Governments in strengthening education, science and culture; therefore our natural allies are the Ministries of Education, with which we work hand in hand to promote projects that build peace in the territories by preparing the human being for the responsible exercise of freedom, solidarity and the defense of human rights, as well as to support the changes that will allow a fairer society for Ibero-America.

# CHALLENGES

**How can we talk about citizenship when we are in social isolation?**

Do I feel like a citizen from home? Or does citizenship only refer to the public sphere? Citizenship=solidarity

**How affront the debate about the theory of the State?**

How can we speak of an education that emphasizes respect for human rights and empowerment? When many decisions restrict the right to liberty, freedom of movement and even privacy .

**Be Resilient**

Surely education is not going to be the same

- More ICT
- More family
